

# THE TASK

Currently, we are conducting daily operations from a rented facility, where we hold daily activities and Friday prayers. As Alfalah Society grows, we hope to move into our own Masjid

that will last for generations to come. We are at the point where we need funds to buy land and develop a center in the Northside San Antonio area, where there are a lot of hurdles, such as deed restrictions and homeowner association restrictions. We are actively working to find a spot where the zoning is allowed so we can create our dream center.

All this is only humanly possible with your help and support. You may donate online by visiting [Alfalahsociety.com](http://Alfalahsociety.com) or can mail us a check at the address listed below.

NOTE: All the information that you provide will be kept completely confidential.

facility. But this won't be possible without your help. As a unified Ummah and community, it is our duty to serve upcoming generations by providing a place where they may learn and practice their religion freely. In order to do this, we need the support of all Muslims, in however much amount, to build a masjid

## ALFALAH SOCIETY OF GREATER SAN ANTONIO

[www.alfalahsociety.com](http://www.alfalahsociety.com)

# OUR STORY

Alfalah Society was born in 2015, created with the vision to establish an exemplary educational institute and Islamic Center, focusing on Islamic

programs that promote harmony, build character, and serve Islam". This is the creed which guides this organization, and will InshaAllah be the anthem shared among Muslims for many years to come.

knowledge, to produce local scholars of Islam. Our hope is to equip future generations with the tools they need to maintain and serve Islam in the local community, and the necessary inspiration they need to empower humanity. As our dream gained momentum, a broader perspective came to mind. Not only do we seek to advance our youth, but affect change and progress at a communal level. So at the heart of Alfalah Society's mission statement is a goal to "develop and empower the community through

# THE FACTS

As the Muslim population of San Antonio reaches great heights, the need for more Masajid becomes greater as well. The city demographic has witnessed a concentration of Muslim families in Northside San Antonio, without any facility to accommodate that part of the city. Additionally, San Antonio's Muslim population has tripled in last decade, and continues to grow Alhamdulillah. To address increasing numbers of Muslims in the area, a few brothers from the community combined efforts toward establishing a Northside Islamic Center. Alfalah Society of Greater San Antonio took the first step toward a city-wide network of Islamic facilities and centers.
